

## Pathogenic *Vibrio* Scheme – Preliminary Intended Results Notification

These results are provided for guidance and are determined from the examinations undertaken during quality control testing of the samples. The enumeration results may show minor variations from the final results, which are calculated from the participants' consensus results, and included in the distribution report.

Distribution: **V064** Samples: **V0168 and V0169**

### Intended results:

Sample No	<i>V. parahaemolyticus</i> (detected / not detected)	<i>V. parahaemolyticus</i> (cfu g <sup>-1</sup> )	<i>V. cholerae</i> (detected / not detected)	<i>V. vulnificus</i> (detected / not detected)
V0168	Detected	5.4x10 <sup>4</sup>	Detected	Not detected
V0169	Detected	2.2x10 <sup>4</sup>	Not detected	Detected

### Sample contents:

V0168	<i>V. parahaemolyticus</i> , <i>V. cholerae</i> , <i>Escherichia coli</i> and <i>Staphylococcus xylosus</i>
V0169	<i>V. parahaemolyticus</i> , <i>V. vulnificus</i> and <i>Enterobacter aerogenes</i>

Laboratory identification numbers of participants who did not return results this distribution:

**All laboratories returned a result**

The distribution report providing details of your individual performance and an analysis of all participants' results will be dispatched within three weeks. The report may also include sample specific comments.

**Repeat samples** are available for only **one** month from the close of the distribution, therefore participants who experienced problems with any of the examinations and wish to make a further attempt or repeat a count need to place a request immediately.

The next distribution of Pathogenic *Vibrio* Scheme samples will be dispatched during the week beginning 13 March 2023.

If you require any technical advice or wish to make comments or suggestions relating to the scheme please contact us.
